- UHS BH facilities continue to routinely exceed the national average in TJC's Hospital-Based Inpatient Psychiatric Services (HBIPS) scores while also receiving other laudable distinctions. For example, in 2019, Hartgrove Hospital was the first hospital in the nation to be awarded a rigorous Disease-Specific Certification for Trauma-Informed Care from TJC.
- All UHS BH hospitals participate in CMS' Inpatient Psychiatric Facility Quality Reporting Program (IPFQR) used by over 1,000 BH hospitals across the U.S. to measure a broad set of evidence-based clinical practices linked to positive patient outcomes and are published on CMS' Hospital Compare web site. **UHS BH hospitals' aggregated results regularly exceed national averages and the scores of its major BH multi-facility competitors.**
- In 2020, more than 330,000 UHS BH patients completed anonymous patient satisfaction surveys. On a five-point scale (1 being low and 5 being high), **UHS patients rated their overall satisfaction during this period at 4.5, with 91% indicating that they felt better after care¹.**
